PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference		can Notific	cation of Transmittal of International Search					
SPINE-395	FOR FURTHER	Report (Form PCT/ISA/220) as well as, where applicable,						
<u> </u>	ACTION	item 5 bel						
International application No. PCT/US03/11685	International filing date (day/month/year) 16 April 2003 (16.04.2003)		(Earliest) Priority Date (day/month/year) 17 April 2002 (17.04.2002)					
Applicant STRYKER SPINE								
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.								
This international search report consists of a total of sheets.								
It is also accompanied by a copy of each prior art document cited in this report.								
1. Basis of the Report								
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.								
the international search was carried out on the basis of a translation of the international application furnished to this								
Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:								
contained in the international application in written form.								
filed together with the international application in computer readable form.								
furnished subsequently to the	furnished subsequently to this Authority in written form.							
furnished subsequently to this Authority in computer readable form.								
the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.								
the statement that the information been furnished.	the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.							
2. Certain claims were found	. Certain claims were found unsearchable (See Box I).							
3. Unity of invention is lacking	3. Unity of invention is lacking (See Box II).							
4. With regard to the title,								
the text is approved as subm	the text is approved as submitted by the applicant.							
the text has been established	d by this Authority to read as follow	's:						
5. With regard to the abstract,								
	the text is approved as submitted by the applicant.							
the text has been established	the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.							
6. The figure of the drawings to be published with the abstract is Figure No. 1A								
as suggested by the applica			None of the figures					
because the applicant failed	to suggest a figure.							
because this figure better c
